

Business Risk Advisory Services

Today's Corporations

Corporations today need to:

- Face a continuously changing risk profile
- Maintain good corporate governance practices
- Grow their shareholders value

How our Business Risk Advisory Services team can assist your company?

The responsibilities of directors whether you are an executive director or non executive director serving on the audit committee are onerous. Our business risk advisory services will help the directors and their companies to maintain good corporate governance practices and manage their risk profiles.

Such services include:

- Evaluate Internal Control Systems
- Conduct risk based internal audits
- Evaluate internal audit and risk management functions
- Assist companies to develop effective approaches to enhance internal audit and risk management
- Leverage on our familiarity with industry knowledge

Our Team

Our Business Risk Advisory Services Division is led by a team of consultants, who have extensive experience in assurance and business advisory services. The team specializes in internal audits, operation risk profiling and evaluation, due diligence services and special investigations.

Our team has substantial experience in servicing clients who are public listed companies and multi-national corporations across a wide spectrum of industries as well as government related agencies.

Please feel free to contact us at weishih@lohocklingco.com.sg to discuss your business needs.
